

Amendments to the Specification

On page 1 of the specification, after the title and before the "Technical Field" heading, please insert the following paragraph:

-- This application is a 371 of PCT/AU03/00964 07/30/2003. --

Replace the abstract with the following paragraph:

--A dish assembly ~~is disclosed which~~ has a central hub (11), an outer rim member (12), and a plurality of concentric arcuate structural members (13) extending from the central hub to the outer rim member; the arcuate structural members being of box-section configuration and abutting along their inner and outer arcuate surfaces such that load can be transferred from an radially outward ~~outer~~ arcuate structural member to an adjoining more radially inward ~~inner~~ arcuate structural member.--
